

GO TEAM REIKI! NEWS

The Newest Edition of The Reiki School and Clinic Student Newsletter
July/August 2008

Hello Dear Friends!

This summer I've been taking some time off to meditate, reiki and revisit the intention of the school. One of things I thought would be nice was a real newsletter, that would not only share news and events, but also give some of our teachers and practitioners a chance to share their reflections on life and the practice of reiki. We all have so much love to give and gifts to share, why not take some time to do it in a newsletter? So, here's a first stab at some 'deep thoughts' I've been sitting with regarding my reiki practice. If you don't want to read them, feel free to skip on to the next part of the letter about Volunteer Opportunities, the PWP, as well as other great classes and events coming up.

If you have any thoughts, questions or reflections to share about my musing, feel free to email me directly at kim@thereikischool.com

In the future look out for some deep thoughts from some of our other practitioners and teachers!

May all beings Benefit!

*Peace and Boundless Love,
Kim*

KIM'S REIKI REFLECTIONS – TAT TVAM ASI

I am that - that I am.

For the past several years I have been contemplating this phrase that I first heard in a religious philosophy class years ago. Ever since it has been repeating like a mantra...I am that. That I am. I am that....

This phrase comes up for me a lot when I practice reiki and contemplate the meaning of universal energy.

I am that.

I am reiki. I am a part of the universal life force – made from it, made of it. How can I channel something that I already am, something that's not separate from me? I'm not sure that I can. I can be present, however, and aware of that innate connection I have with all things and allow a space for that connection to flow, uninterrupted, for the greatest good. And I can listen. And reply. And act by allowing my hands to be naturally and effortlessly guided.

That I am.

I am made up of energy and so is everything else, so nothing is separate from me. We are made up of the same stuff. Especially since we are not only connected, by interconnected. The sun shines and helps the body, the air gives us breath, our food sustains us, the water gives us nourishment, as do our relationships with good friends, teachers, and family. Without earth, air, water, people, we could not be. What we do to the earth, the air, the water, our relationship, ultimately impacts what we receive ourselves. In the food I eat I can see the sun that shined on the crops, the rain that watered them, the farmer that nurtured the little seed, the person who picked the veggies and shipped them, the pilot who drove the plane to deliver the veggies, the clerk at the supermarket who checked me out.... All there, smiling up from my broccoli bite. I am that. That I am...

When we do reiki we have the wonderful opportunity to open fully to ourselves and our connection with all that is. With intention and with love we can relax into the state of harmony, clarity, peace and freedom where true healing exists.

Nature is in us. We are in it.

Our family and friends are in us. We are in them.

The divine is us, we are it.

We need only surrender to our greatest potential, relax, and be.

CONTINUING EDUCATION PROFESSIONAL DEVELOPMENT!**

Okay, here's the deal – we have been listening and observing grads and their needs for years now, trying collectively to come up with ways to support our reiki communities (or sanghas) once classes are over.

We've be gathering feedback and testing different ideas.

Here's the latest offering that I think will fill that gap of what people have been needing:

*8 topics over 16 weeks, focusing on each topic for 2 consecutive weeks.
Each topic will be hosted by me, and/or presented in conjunction with an expert in the field.*

You can choose to sign up by the topic, for a discounted rate for 3 topics, or an even bigger discount if you choose all 8!

More details soon of what topics will be covered on which dates.

Sample Topics include:

Web development, Flyer/Print Advertising, The Art of the Business Card, Role Playing with clients/potential clients/students, Spiritual Growth/Personal Development and Reiki, Accounting Tips and How to Keep your Books, and Online Advertising.

Each week is 4 hours – the first half of the class will include giving and receiving a full 1/2 hour of reiki, as well as a personal practice discussion. After the dinner break the second half of the class will focus on the topic at hand. For most topics the presenter will use the first week to instruct, and then the second week the group will return with their homework and we'll share ideas and share each other's work.

Choose 2 weeks (1 topic) - \$60 , 6 weeks (3 topics) - \$150, 16 weeks (all 8 topics!) \$400
